## 2. Message (CM of Rajasthan) – Smt Vasundhara Raje

**VASUNDHARA RAJE**  
CHIEF MINISTER RAJASTHAN

### **Message**

I am delighted to see Project Utkarsh changing the dynamics of Education System in Rajasthan by making students digitally empowered. The ambitious project, which was launched in the historical city Udaipur, four years back in 2014, has now spread its reach to 1400+ schools of 8 Districts in Rajasthan, speaks volumes of its success quotient. Several feathers have been added in district's cap with the implementation of Project Utkarsh. In last 3 years, 75000+ students across 300 schools of Udaipur District benefitted through this initiative. Positive changes in new enrolment at school, students' attentiveness in the classroom as well performance in school exams in Project Utkarsh enabled schools is also appreciable.

I congratulate Project Utkarsh team for playing an important role in State Government's effort to make our education system strong through implementation of smart classes and e-learning projects in Govt. Schools. I also congratulate the team for creating ecosystem for smart education in State and bringing innovation in learning-teaching process.

I heartily appreciate efforts taken by Udaipur District Administration and Education Department for successful implementation of this project.

I would also thank and congratulate Moinee Foundation and CSR partner Rajasthan State Mines and Minerals Ltd, Udaipur for the commendable job they are doing. I wish the project very best.

Moinee Foundation,  
Sawai Madhopur, Rajasthan

Dear Mr. Arvind Thanvi,

I am writing to you to thank you for your organization's support for the sustainable development of my constituency, Sawai Madhopur. Your support in the area of improving quality of education through your Project Utkarsh means so much. The project sets a classic example as to how technology combined with capacity building can improve the delivery of quality education and increase learning levels at a scale. I hope to encourage organizations like yours to continue such excellent work and to please know that my office and staff are there to help you and ensure that there is both political will and support for your endeavors. Your work has greatly contributed to my efforts to improve the quality of school education and bring about sustainable development and a lasting change for the better in the lives of the people in Sawai Madhopur.

I truly appreciate the initiatives and programs run and supported by your organization in the constituency and I do hope that we can build on this success and continue and expand your programs to reach even more people in Sawai Madhopur.

In particular, it would be wonderful if you could further expand your presence by extending the number of schools under the project as well as deepen the program by developing more technological interventions in existing schools in Sawai Madhopur.

Please do not hesitate to contact us so that we may extend you all the necessary support to help take Sawai Madhopur to new levels of successful and sustainable development.

Please do relay my sincere gratitude to your staff, your management, and your trustees.

Princess Diya Kumari  
(MLA, Sawai Madhopur Constituency)

I am delighted to see that we are making systematic changes in our education and making the best use of available technology. This is certainly the right way forward, not only for enhancement of quality education but also for fulfilling the dream of digital empowerment for one and all.

I congratulate the District Collector, Shri Rohit Gupta and his capable team for taking this futuristic step and making it a reality. On the occasion of successful completion of one year of the program, I appeal to everyone in our department to learn from the best practices offered by this program and ensure overall gains for our future generations.

Project Utkarsh has been an advantage, not only for education administrators who's E-Governance capability to remotely monitor ICT labs has increased but also for our students who are mostly first generation learners from rural and remote areas. Today when everything seems to be available at the click of a mouse, these steps towards convergence of curriculum based learning with digital platform and innovative methodology are the need of the hour and are highly appreciated.

I appreciate and acknowledge the generous and continuous support extended by Hindustan Zinc Limited for the project. I also appreciate the sincere and continuous efforts of Moinee Foundation to ensure smooth execution of project on ground.

I would like to extend my best wishes to Project Utkarsh team in their onward journey for incremental improvement in quality of education and I also look forward to expansion of the program to cover a much larger number of schools, besides the ICT schools.

**Letter of Appreciation**

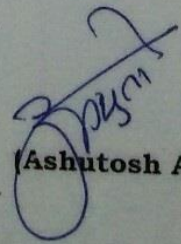

On behalf of Udaipur district administration and education department, I would like to thank and congratulate **Moinee Foundation, Jaipur** for successfully completing **"Project Utkarsh"**- Pilot in 12 nodal schools in Udaipur District.

The benchmark this project has set in terms of Students Participation, Performance Improvement, Teachers Receptiveness and Quality Enhancement, has certainly exceeded my expectations. I attribute this as an outcome of Sincere Efforts, dedication, Hard-work and enthusiasm of Moinee Foundation Team.

Given the adversities involved in the project like working with rural & tribal schools in remote areas and limited connectivity etc., I am amazed to see that how the team of Moinee Foundation collaborated & coordinated the whole project with DEOs, Principals, Teachers, Computer Operators, Students etc. to bring about a surprisingly positive impact in education in these govt. schools.

I would also like to extend a personal appreciation and sincere thanks to **Mr. Arvind Thanvi and Mr. Vijay Vyas**, for their dedication to improving quality of education as social cause. They have displayed excellent skills on detailing, planning & executing Project Utkarsh.

Best wishes to Moinee Foundation for their future endeavours.

### Appreciation Letter

For successful implementation of Project Utkarsh in 131 ICT enabled Government Schools of Jhalawar District, on behalf of District Administration of Jhalawar, I extend my thanks and appreciation to our intellectual and implementation partner Moinee Foundation, Jaipur for their remarkable contribution.

Project Utkarsh, which has been designed to bring qualitative changes in school education through integration of technology at grass root level leveraging available infrastructure at school, has been very effective in term of ICT infrastructure usage, student-teacher engagement, innovation in learning teaching experience as well enhancement of I.T. skills.

Moinee Foundation has played pivotal role right from project conceptualization, initiation, planning, execution, monitoring & control, in spite of having geographical and other practical challenges.

I convey my heartiest congratulations to entire Moinee Foundation Team and appreciate their passion and dedication, which resulted in undeniable success. I am sure there will be many more milestones to be achieved by Moinee Foundation to lead education system to new heights.

[Dr. Jitendra Kumar Soni]

District Collector

### Message

It's a matter of great pleasure for me that Project Utkarsh has successfully completed first year in Jaipur district. It feels good to know that total 100 ICT schools have been benefitted through this programme.

Education, being the primary and most important step of a student's journey to life, needs to build a strong foundation and this programme has definitely come up as an effective solution for the same.

We are happy to have been associated with Project Utkarsh as we wanted to move in same direction to raise the quality of life and social well-being of communities and I am happy that we did achieve what we aimed for.

I thank all stakeholders for their immense support and efforts extended in making this programme successful and in bringing it as a benchmark.

I also extend my best wishes to all stakeholders to carry forward this journey with zeal and passion for betterment of the society.

### **Message**

I am glad to know that Project Utkarsh has successfully completed one year of implementation in 316 ICT enabled Govt. Schools of Udaipur District with the objective of bringing qualitative changes in education through integration of technology.

At Hindustan Zinc, we are committed to raising the quality of life and social well being of communities where we operate, and education is an important and integral aspect of the same. We are happy to have been associated with Project Utkarsh, which is a laudable effort in that direction.

The first year of the project was focused on creating the ecosystem for smart education through ensuring functionality of ICT infrastructure, capacity building, technological orientation of teaching and learning fraternity, development of remote monitoring mechanism etc. This foundation can now be used to reach greater milestones in the future.

I extend my best wishes to all stakeholders to carry forward this journey with zeal and passion for betterment of society.
